colori in orbita attorno alla materia ne esaltano la veridicità

Colours in orbit around materials enhancing their veracity
Les couleurs en orbite autour de la matière exaltent sa véracité
Farben im Orbit um die Materie unterstreichen die Wahrhaftigkeit

Un'estetica forte e stonalizzata in cui forma e struttura si fondono a grafismi realistici che evocano le venature originali delle pietre d'ispirazione. Materia e colore si incontrano in spazi residenziali e pubblici per accendere superfici e arredi dal design ricercato che parlano un linguaggio stratificato ed eclettico. Cinque tonalità calde, con finitura naturale, spessore 6,5 mm e 10 mm, si offrono per rivestimenti a parete e a pavimento, con l'aggiunta di superfici per l'outdoor disponibili anche nello spessore 2 cm che estendono la progettazione verso nuovi confini in&out.

A strong and shaded aesthetic in which form and structure merge with realistic graphics that evoke the original veins of the inspiring stones. Material and colour meet in residential and public spaces to light surfaces and furnishings with a sophisticated design that speak a layered and eclectic language. Five warm shades with a natural finish, thickness of 6.5 mm and 10 mm, for covering walls and floors, with the addition of outdoor surfaces also available in thickness of 2 cm, which extend the frontiers of indoor&outdoor architectural design.

Une esthétique forte et nuancée dans laquelle la forme et la structure se fondent avec des graphismes réalistes qui évoquent les veines originales des pierres d'inspiration. La matière et la couleur se rencontrent dans les espaces résidentiels et publics pour illuminer les surfaces et l'ameublement au design raffiné qui parlent un langage stratifié et éclectique. Cinq tonalités chaudes, avec finition naturelle, de 6,5 mm et 10 mm d'épaisseur, se proposent de recouvrir les murs et les sols avec, en plus, des surfaces pour extérieur disponibles en 2 cm d'épaisseur qui prolongent le projet vers de nouvelles frontières in&out.

Eine starke und kontrastreiche Ästhetik, bei der Form und Struktur zu realistischen grafischen Gestaltungen verschmelzen, die an die ursprünglichen Aderungen der Steine erinnern, die als Inspiration dienen. Materie und Farbe treffen in Wohn- und öffentlichen Räumlichkeiten aufeinander, um Oberflächen und Einrichtung mit einem auserlesenen Design zum Leben zu bringen, die eine eklektischen Sprache mit vielen Schichten sprechen. Fünf warme Farbtöne, eine natürliche Oberfläche und die Stärken 6,5 mm und 10 mm bieten sich für Wand- und Bodenbeläge an. Hinzu kommen die Outdoor-Versionen, die auch in Stärke 2 cm erhältlich sind und neue Möglichkeiten für In&Out-Konzepte eröffnen.
